About Me

Hi, I'm Ronald — a self-taught full-stack web developer with a diploma in ICT. After college, I worked as a boda boda rider while teaching myself how to code. What started as curiosity turned into a passion for solving problems through tech.

Now I build apps using React, Node.js, and MongoDB — focusing on clean UI, strong backend logic, and helping users stay organized. I'm consistent, always learning, and excited about where this journey is taking me.

Skills

- Frontend: React, JavaScript (ES6+), Tailwind CSS, HTML, CSS
- Backend: Node.js, Express, MongoDB, Mongoose
- Other Tools: Git, GitHub, Postman

Projects

Birthday Reminder App

A full-stack app to help people keep track of birthdays and get timely email reminders.

Built with: React, Node.js, Express, MongoDB, Tailwind Features:

- Secure login/signup using JWT
- Automatic email reminders (monthly, 3-day, and same-day)
- Password reset via email
- Simple and responsive UI

Education

Diploma in Information Communication Technology (ICT)

Kenya National Youth Service Institute of Business Studies

Graduated: 2021

What Makes Me Different

- I know the value of hard work — I've balanced work and learning every day.
- I build things that solve real problems, not just for practice
- I'm committed to growing one line of code at a time
